

Our city – the vision

Manchester's Local Area Agreement – Using the pack

Our city – the vision

Using the pack

To achieve the vision for Manchester by 2015 there are actions that must be taken. These actions will enable Manchester to continue to grow economically and will ensure that our residents become healthier, happier and wealthier.

The Community Strategy sets the vision. Manchester's Local Area Agreement (LAA) delivers this strategy and is based on what partners agreed will make the most difference. The LAA has priorities, indicators and targets; this pack explains what it means, what we are doing now and where we want to be.

The materials are for partners to read and to share with staff. There is a power point presentation with notes, posters showing cycles of actions that bring the priorities to life, and examples of how things being done today will achieve the vision by 2015.

Please use the pack. Share the presentation with your staff when talking about what your service wants to achieve. Print off the posters, discuss them with your team, and display them in your offices. Look at our examples of what we are doing today and how this will deliver the vision – you can encourage your team to explore their own examples.

If you have questions or if you need further information, please contact Jane Abdulla or Andrew Blore at The Manchester Partnership Team on 234 1882.
